From The Principal's desk

"The aim of education is the knowledge, not of facts, but of values"

- **William S. Burroughs**

Dear Parents, staff & students,

The most apt platform to find oneself is none other than "EUREKA ZPS!!!" Newsletter!

It's time to express gratitude with zeal & vigour reflecting to do more and grow more, nurturing dreams to ace the coming academic term and year, embarking on the journey successfully!

The first term of the academic year 2022, taught us that the only thing, constant in life is 'Change' but the beauty of the children and childhood is that all changes were accepted with open arms, new learnings and not to forget the enthusiastic smiling faces.

The magic created by the amalgamation of the triangulated efforts by Students-Teachers-Parents in the last term has carved the niche for the strong and very evident holistic development of all the members of the school.

The curricular progression has been remarkable in meeting the needs of all learners. Our curricular and co-curricular activities have been very well engaging and well planned with great positive learning outcomes.

All the activities are being shared on the website, social media and YouTube channel! The newsletter EUREKA ZPS!! is a reflection of all the activities, happenings, programs, initiatives which are the compass for the student's meaningful engagement, huge scope to enrich their reading and writing skills as the articles, poems, provide an insight into their day-to-day learning and development!

I take this opportunity to congratulate the "Editorial Team" ZPS for bringing forth the first Edition, end of Term Newsletter, 2022- 2023.

Wishing a great year ahead!

Mrs. Saleema Mahmoodi

Principal.

KG1 Activities

Matching numbers with the number of dots

Play and learn time with different toys to encourage and build creativity, develop more fine motor skills, gross motor skills, eye coordination and enrichment of vocabulary.

Identifying shapes and colours

Using rods to form numbers and letters

Art : making a turtle with cut-net papers

KG2 Activities

World Heart Day
On this heart day promise your self to take care of your heart!!

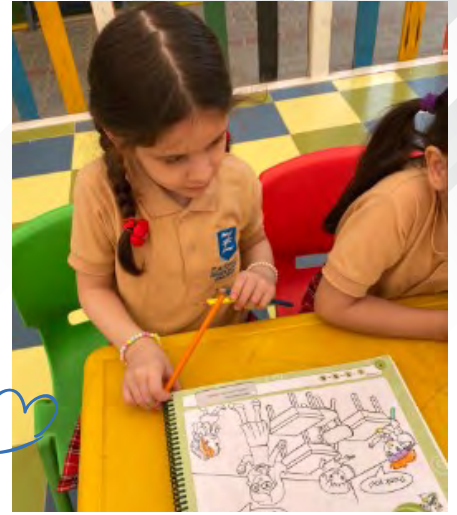

Snippets of RED DAY Celebration

ALL ABOUT PLANTS

Children learnt the different parts of a plant

Coloring is FUN!!

The Ants go marching one by one!!

READING TIME..

We learn and write our cvc words!

We are very innovative at art!!

Designing our names

Playing and having fun together!!

WORLD FOOD DAY

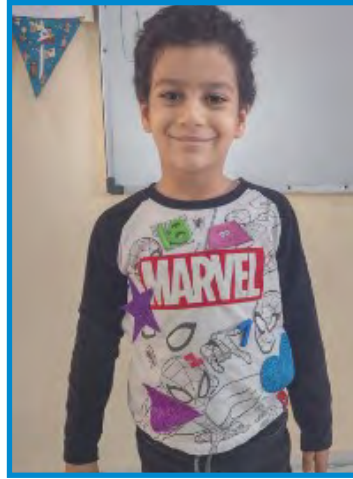

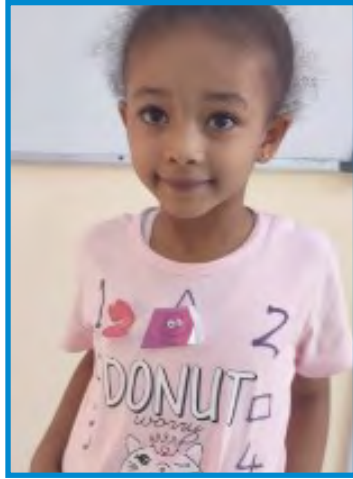

The students learnt about the healthy and unhealthy food and how to avoid food wastage

I have a new friend!! Her name is Elsa!

MATH WEEK

EUREKA ZPS GRADES ACTIVITIES

First day
of school.
Grade 1

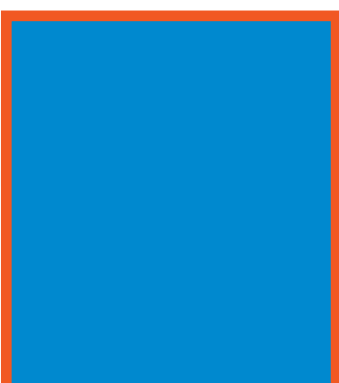

MATH WEEK ACTIVITIES AND GAMES

→ GRADE 1.

Times table challenge, math scavenger hunt and number bonds

Reading sight words and matching numbers with its place value

OUR BUDDING POETS

My School

I love my school so much. I love my teachers and classmates. They help me learn new things. All the subjects are my favourite subjects. I try my best at school and also try to make it to school. All the teachers are my favourite teachers. I go by bus no. 3 and everyone on the bus is nice to me. I am in the drama club and everyone is also nice to me. My principal also says nice words to us.

Grade 4A

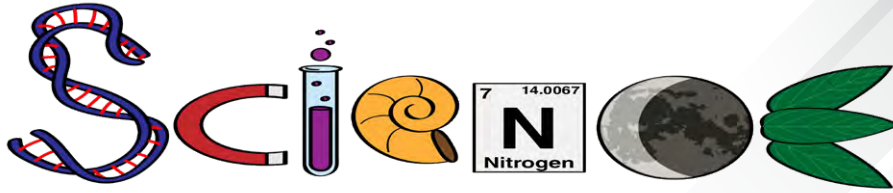

A sunny Day

I woke on a sunny Day
It was a Funny day
And I had a lot of fun
And it was a wonder day

I went to school that morning
And I saw it was a pleasant day
I learnt more things and got more
knowledge
Also played with my friends
It was a wonderful day

Grade 4A

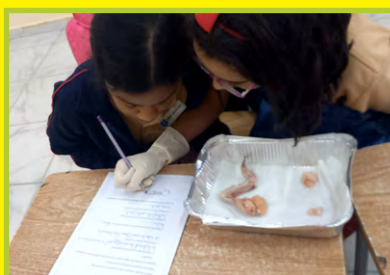

Grade 4 Young ZPS scientist are trying their hands on experiential learning analysis and hypothesis

Grade 5 DIY PERISCOPE

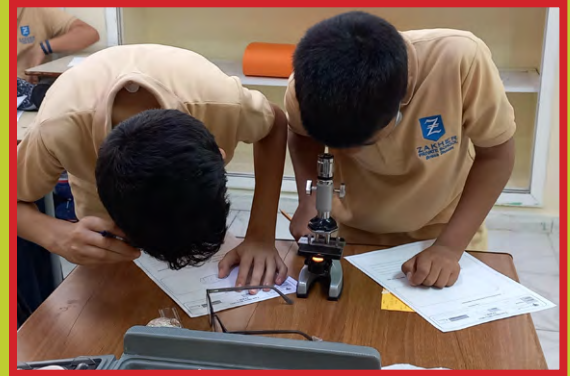

Grade 5B - Measuring Shadow and Identifying the size of the shadow

Grade 6A & B Experiment

Chicken Wing Dissection
Students learnt about the different bones, joints, cartilage and tendons

Grade 6A & B Experiment

Viewing an onion cells
using microscope and
magnifying glass

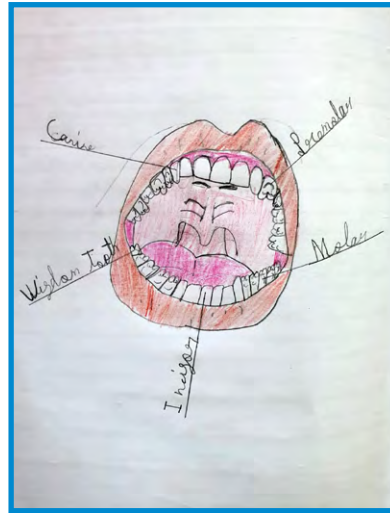

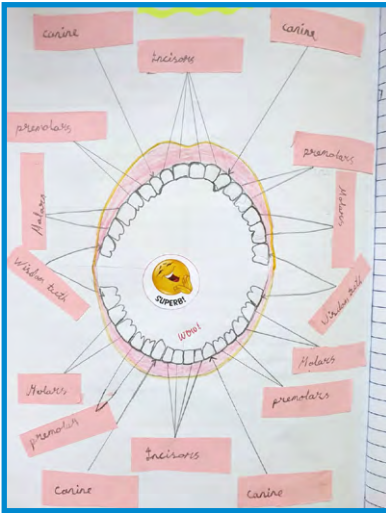

Innovation and Future Young Scientist of ZPS
Investigate and Identify the soluble and insoluble substances.

GRADE 3 IN ACTION

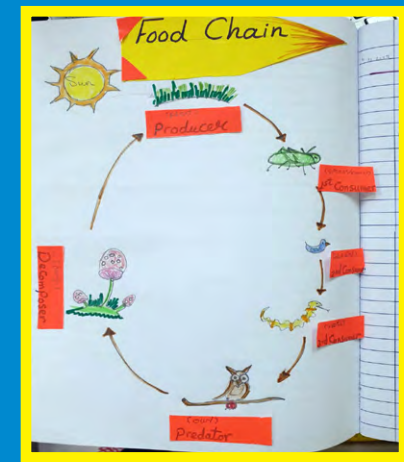

→EUREKA ZPS←

It was a great experience putting smiles on our student's faces by welcoming them to our great Citadel where giants emerge.

Our teeth are very important part of our body. Lama Ahmed drew and labelled the parts of a teeth.

A food chain describes who eats what in our environment. It starts with a producer eg a plant and ends with a predator or decomposer

By Lama Ahmed

Time is used to quantify and measure the duration of events or the intervals between them, and even, sequence events.

Group work activities done in the classroom.

Sara Khaled designed a nice food chain.

Albraa did a presentation of his food chain showing us the relation between the producer and decomposer!

Grouping of animals. Vertebrates are animals with a backbone and invertebrates are animals without a backbone.

Math week for Grade 3 A. Kids were given math challenges in groups to see how fast they can create a number chain.

GRADE 6 IN ACTION

→EUREKA ZPS←

Debating is an essential tool to enhance students' speaking skills. From planning the argument – even if it's one you disagree with – to choosing the words with care, debating can prepare the students to take on any challenge life may present to them.

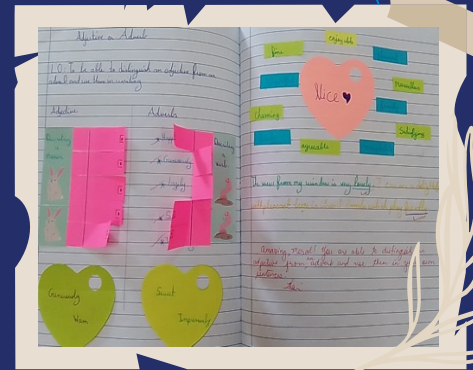

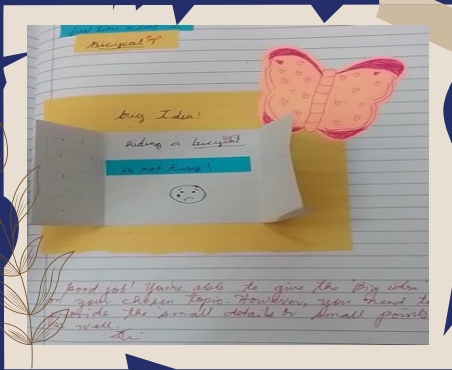

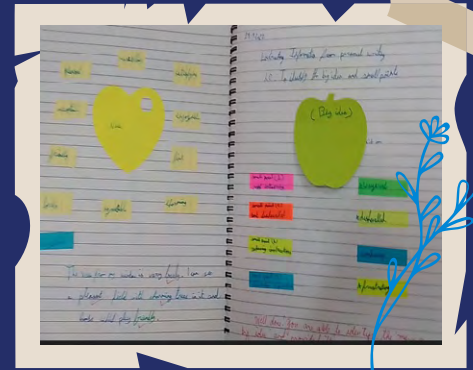

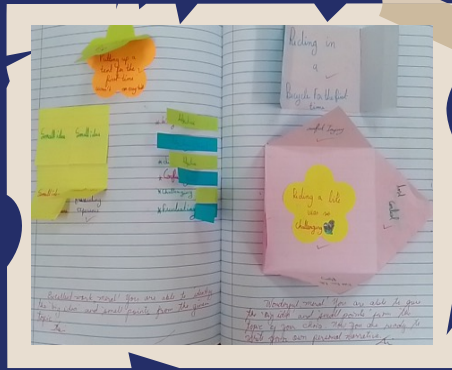

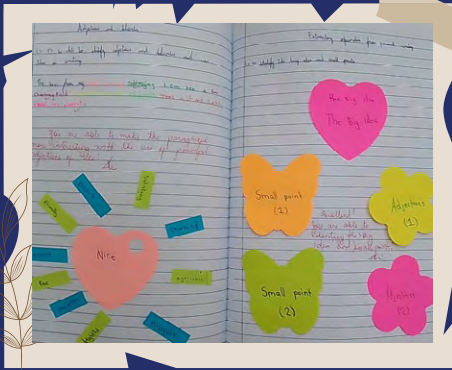

Debating is, by no means, the same thing as engaging in a full-blown argument. Instead, you will have to prepare a compelling, succinct argument, which will gain support and backing, rather than simply attacking your opponent blindly.

Here, Grade 6B are seriously engaged in a debate with the topic 'Shopping Malls is better than Online Shopping'. The class is divided in 2 groups, one for affirmative or for the topic and the other for negative or against the topic. To prove their point, the students also conducted interviews and were presented during the debate process.

Grade 6 Students making interactive notebooks.

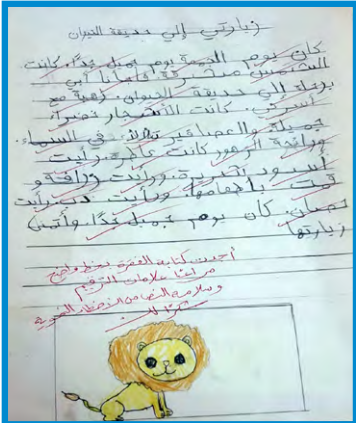

Interactive notebooks help students' process information, study and review for assessments and personalize the content knowledge being presented.

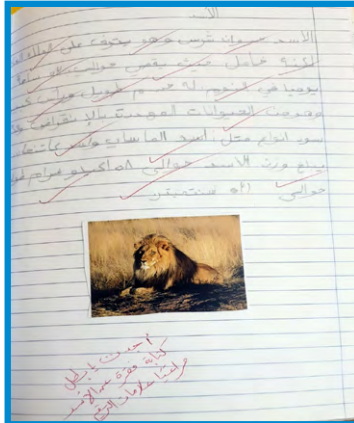

Grade 5 students measuring some objects around the school

ARABIC LANGUAGE ACTIVITIES

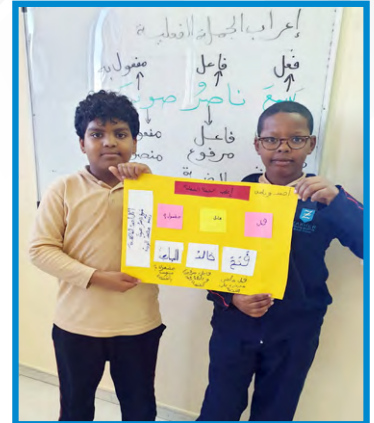

الطالبة: جودي هشام
الصف: الرابع

الطالبة: ميسم الميس
الصف: الرابع

الطالب: ماب عصام
